<p><u>CABOLT - Developments</u></p> <p>2. <u>CABOLT's Health</u>: CABOLT suffered a slight blood clot behind one eye and was ordered by his doctor to give up smoking and drinking, and to lose some weight. He followed the prescribed regimen and there were no complications from the clot. He now appears to be in better health than he has been for some time.</p> <p>12. <u>Transfer of Contact</u>: Because of <input type="checkbox"/> involvement in Base FI activities and lack of contact with CE operations, we have concluded that more could be derived from this contact if it were handled by a CE case officer. We have started to implement a turn-over, but from CABOLT's initial reaction we believe it may be necessary for <input type="checkbox"/> to maintain a social relationship with CABOLT after <input type="checkbox"/> has assumed the operational contact;</p>
